2008 Molecular Methods Proficiency Survey

WSLH PT is currently seeking input from our customers regarding what molecular testing is currently part of their routine in-house test menu (or will be brought online within 6 months). Your answers to this survey will help WSLH PT determine the need for services in this area. Please answer the questions on the bottom half of this page. Questions? Call 800-462-5261 x 56.

NOTE: WSLH PT already offers a program for Mtb-NAA testing (order product TB-R, price: \$220). If you are interested in that program, please add it to your 2008 re-enrollment form OR contact customer service to add it to your enrollment.

Fax your completed form to 608-265-1111 by November 30th, 2007.

Please answer the following questions by filling in the appropriate choice bubble(s) below.

#1 Does your lab currently perform any in-house molecular testing?

- No, we do not perform any in-house molecular testing at this time. (Skip questions 2-5)
- Yes, our in-house test menu includes molecular testing.

#2 Does your in-house menu include molecular testing for Mtb? YES / NO

#3 If your lab performs molecular methods for organisms other than Mtb, please review the list below and indicate which tests you perform currently or will be adding to your in-house menu in the next year.

<u>Provide one response per organism listed:</u>	In-house?	Yes	No	In development
B. pertussis		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
B. parapertussis		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Enterovirus		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
HSV		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Influenza A and/or B		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Legionella		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Norovirus		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
MRSA		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
VRE		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Strep B		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

#4 Does your in-house molecular testing involve any multi-test platforms?

- No
- Yes (please define): _____

#5 COMMENTS (additional organisms/procedures you'd like to have included, program format ideas, etc):

#6 Name of person completing this survey (please print): _____

Do you have primary responsibility for molecular testing? (circle one): Yes / No
