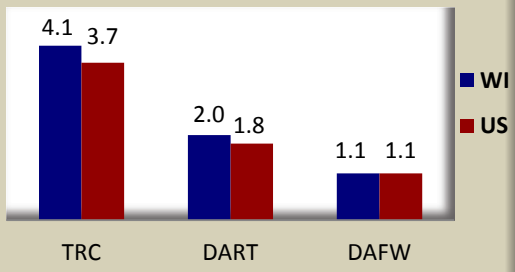
TRC= Total recordable cases
DART= Cases with days away from work, restricted or transfer duty
DAFW= Days away from work

THE SURVEY OF OCCUPATIONAL INJURIES AND ILLNESSES (SOII) is the largest nationwide data collection of worker injury statistics. This information helps pinpoint the causes of work injuries, and is used to:

- Create safety legislation
- Set insurance policy rates
- Improve worker safety programs
- Compare injury rates across industries

WI vs. US Injury & Illness Rates,
All Ownership: 2012



THE CENSUS OF FATAL OCCUPATIONAL INJURIES (CFOI) provides a comprehensive account of each death which occurs in the workplace.

This information helps to:

- Promote safer work practices through better training
- Inform workers of safety hazards
- Assess and improve safety standards
