# WMLN Surveillance Data

## 2017

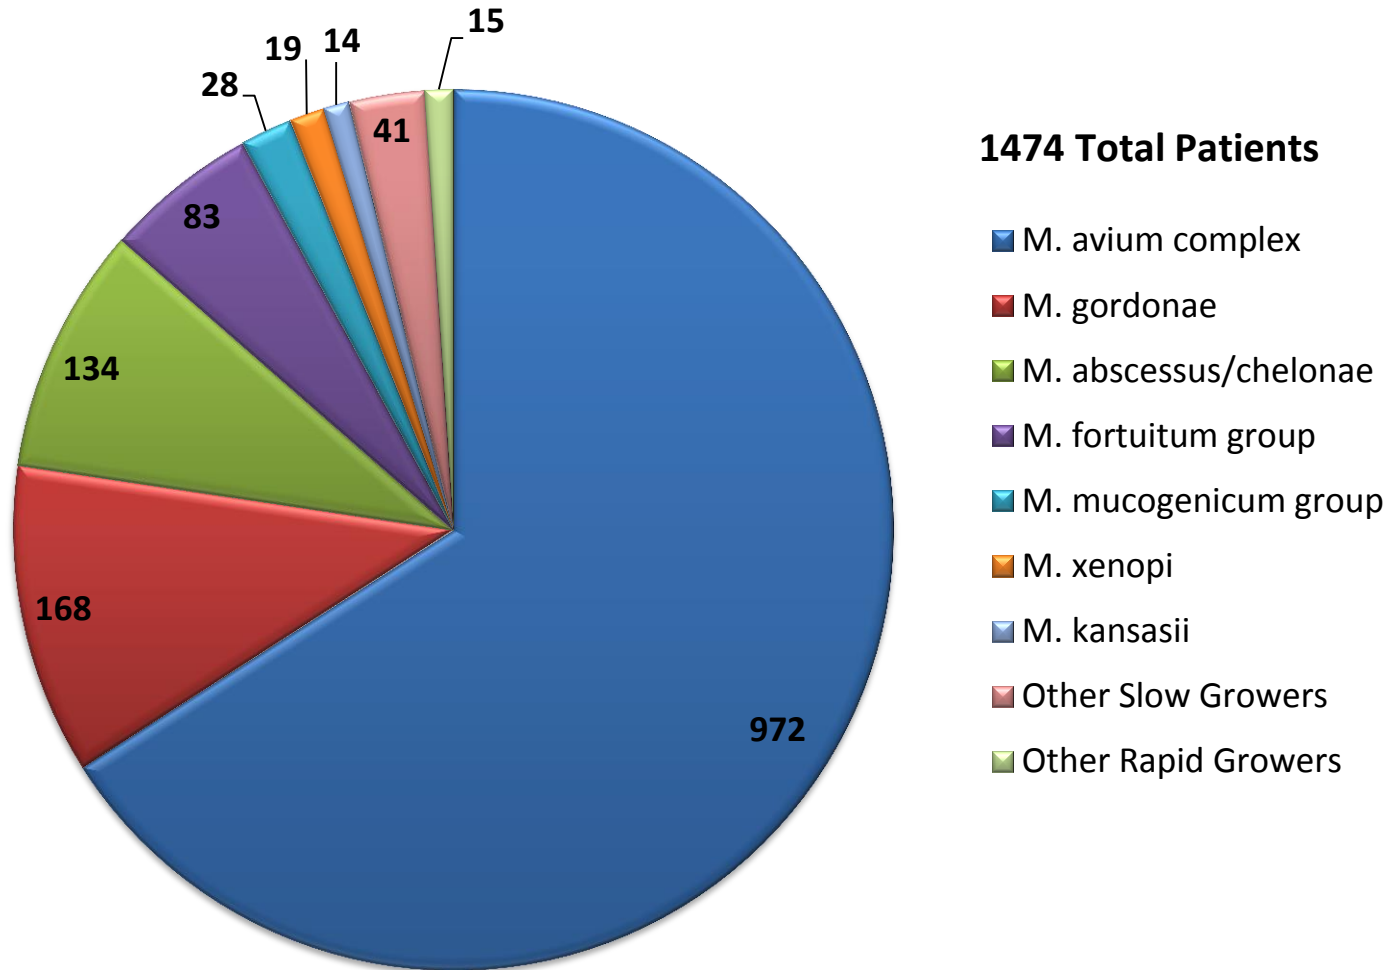

# MDR TB in WI

# NTM isolations (2017)

# Update to MDDR Testing at WSLH

- May 2018—completed validation of GeneXpert MTB/RIF assay
- WSLH performs GeneXpert MTB/RIF assay on all new TB patients identified in WI (sputum sediment or broth culture—MGIT)
  - Any other specimen type is sent to CDC or Milwaukee City Public Health Department for testing depending on risk factors for MDR-TB

## Site Visits to WMLN Labs

- 1 site visit completed in 2017
- 4 site visits completed in 2018
- More to come in 2019!
