Program: This one day conference is being coordinated by the Wisconsin State Laboratory of Hygiene for the Wisconsin Clinical Laboratory Network (WCLN). The conference will allow participants to network and learn from colleagues as we discuss both the advantages and challenges associated with syndromic multiplex panel testing and laboratory automation. Audience participation in the discussions will be highly encouraged.

Please come prepared to share your experiences and expertise as we discuss how syndromic multiplex panels and automation fit into your laboratory today and tomorrow.

Target Audience: This workshop is intended for laboratory professionals who currently perform syndromic multiplex panel testing or who have implemented laboratory automation, as well as those who are interested in bringing this type of testing into their laboratories. **We highly encourage laboratory leaders who have the authority to implement new technologies and assays in their laboratory to attend this workshop.**

Special Needs: In compliance with the Americans with Disabilities Act (ADA), individuals requiring special accommodations must notify the program coordinator no later than one month prior to the workshop date.

Fee: This conference is offered at no charge; lunch, morning break and afternoon break will be provided.

Registration: Pre-registration is required. A confirmation of registration will be sent via e-mail prior to the conference date.
